26. System for Award Management (SAM) (formerly CCR):

Heery International is registered in the SAM data base. Our registration number is the same as our DUNS number listed above.

Introduction to Heery International

**Professional Engineering Services
Contract No. GS - 23 F - 0168 K**

Introduction to Heery International

HEERY INTERNATIONAL, INC.

History

For over 60 years, Heery International has been the one-source solution for federal agencies' needs on their design and construction programs, helping to increase control of projects and optimize staff efforts. Heery has provided expertise and resources to more than 30 federal agencies throughout the United States and on government installations abroad. As an advocate of the Government, Heery becomes an extension of the agency's staff.

Heery's cost-effective services range from establishing criteria, programming, planning and design, program and construction management to move-in, maintainability and operating efficiency – everything your busy government agency needs to get a project from concept to the drawing board, the dedication ceremony and beyond. Heery's professional staff keeps current on emerging industry technologies, project delivery methods and trends, and have the most advanced resources at their disposal. Heery has an extensive Wide Area Network (WAN) that connects our 28 offices and enhances communications with our clients through collaborative methods of information sharing.

Heery International, Inc. is a full-service design and construction firm with more than 700 employees located in offices throughout the United States. We provide five primary services including program management, construction management (at-risk), architectural, interior design and engineering. However, under this schedule contract, Heery cannot provide for construction or architectural design services.

Heery currently holds three GSA schedule contract vehicles to help meet the procurement needs of eligible users, including all branches of federal, government, and under certain circumstances, state and local government. These schedules include:

- **Professional Engineering Services, Schedule 871 (GS-23F-0168K)**
Under this particular schedule, Heery's services include the entire spectrum of planning, evaluation and management including program/project management, construction management, move management, design reviews, CADD, estimating, scheduling, value engineering, feasibility studies, inspections, commissioning and more.
- **Facilities Maintenance and Management, Schedule 03FAC (GS-10F-0203S)**
Heery offers energy management services to help agencies meet their requirements to comply with energy laws and regulations. Under this schedule Heery provides energy management planning and strategies, metering, energy program support, energy audit services, energy consulting, building commissioning, resource efficiency management and more.

We are ready to assist you in procuring through Heery's GSA Schedule Contracts. Please contact Heery's Contract Administrator, Carolyn Jones at (404) 946-2432 for more information.

Professional Engineering Services
Contract No. GS-23F-0168K
PROFESSIONAL ENGINEERING SERVICES

Professional Engineering Services

The Primary Engineering Discipline offered by Heery is Civil Engineering as it relates to all aspects of facilities. In this schedule, Civil Engineering encompasses the entire realm of planning, evaluation and management involved with constructed infrastructure, facilities and buildings, transportation systems, water, earthworks, and other structures.

It includes, but is not limited to, planning, evaluation, and operation of bridges, dams, airports, highways, transportation systems, large buildings, power generating plants, sewage systems, water resources and supply, waste treatment facilities, soil, rock, etc.

Services Not Included

1. Construction and Architect-Engineering services as set forth in FAR Part 36 [including design, construction, alteration or repair (including dredging, excavating and painting) of buildings, structures, or other real property)] are not included.
2. Environmental Advisory Services are not included, however, management of such services are available through this schedule. Contact Heery for clarification of this topic.

The following non-inclusive list represents a sampling of the types of engineering tasks contemplated:

- o Acquisition and Life Cycle Management
- o Analysis of Program Goals, Mission, Objectives, Performance
- o Assessment Support
- o Computer-Aided Design (CAD)
- o Computer-Aided Engineering (CAE)
- o Computer-Aided Management (CAM)
- o Concept Development
- o Demonstration and Validation
- o Documentation and Information Dissemination
- o Instrumentation
- o Integration
- o Investigative Engineering Service
- o Life Cycle Costing
- o Logistics
- o Long-term Reliability and Maintainability
- o Migration Strategy
- o Move Management
- o National Academy of Sciences Studies
- o O&M (Operation and Maintenance)
- o Operations Research (Non R&D)
- o Regulatory Compliance Support
- o Reliability and Maintainability Analysis
- o Reverse Engineering
- o Site Development
- o Source Data Validation (existing Hardware and Software Systems)
- o Special Projects and Studies
- o Statistical Analysis
- o Support Services
- o Systems Engineering Database Development, Maintenance, and Analysis

Professional Engineering Services
Contract No. GS-23F-0168K
PROFESSIONAL ENGINEERING SERVICES

- o Economic/Business Case Analysis
- o Economic Impact Evaluations
- o Education/Training
- o Forensic Engineering
- o Independent Verification and Validation (IV&V)
- o Information Services (studies, impact statements, program development, project documentation, data collection, data analysis/evaluation, etc.)
- o Permitting and Licensing
- o Plan, Organize, Establish, Implement, Manage, Maintain, Upgrade and Control of Technical Systems
- o Privatization
- o Program and Project Management
- o Prototype Development and First Article(s) Production
- o Technical Analysis
- o Technical and Management Support
- o Technical Writing/Editorial Support
- o T&E (test and evaluation) of Products and Systems

Special Item Number (SIN) Specifics:

871-1 /871-1RC Strategic Planning For Technology Programs/Activities

Services required under this SIN involve the definition and interpretation of high-level organizational engineering performance requirements such as projects, systems, missions, etc., and the objectives and approaches to their achievement. Typical associated tasks include, but are not limited to:

- o analysis of mission
- o program goals and objectives
- o requirements analysis
- o organizational performance assessment
- o special studies and analysis
- o building assessments
- o training, privatization and outsourcing

Example: The evaluation and preliminary definition of new and/or improved performance goals; such as procedures and costs, capability, useful service life, accuracy and sustainability

Professional Engineering Services
Contract No. GS-23F-0168K
PROFESSIONAL ENGINEERING SERVICES

871-2/871-2RC Concept Development And Requirements Analysis

Services required under this SIN involve abstract or concept studies and analysis, requirements definition, preliminary planning, the evaluation of alternative technical approaches and associated costs for the development or enhancement of high level general performance specifications of a system, project, mission or activity. Typical associated tasks include, but are not limited to:

- o requirements analysis
- o space programming
- o program/budget estimates
- o cost/cost-performance trade-off analysis, Value Engineering
- o feasibility analysis
- o feasibility studies
- o regulatory compliance support, life safety, ADA, building codes
- o training, privatization and outsourcing

Example: The development and analysis of the total mission profile and life cycle of the project/facility including examination of performance and cost tradeoffs.

871-3/871-3RC System Design, Engineering And Integration

Services required under this SIN involve the translation of a system (or subsystem, program, project, activity) concept into a preliminary and detailed design (engineering plans and specifications), performing risk identification / analysis / mitigation, traceability, and then integrating the various components to produce a working prototype or model of the system. Typical associated tasks include, but are not limited to:

- o computer-aided design
- o design studies and analysis
- o configuration management and document control
- o simulation and modeling
- o site evaluations
- o value engineering
- o building condition reports and assessments
- o design management
- o detailed reviews
- o schedule scenarios
- o cost modeling
- o management plans
- o construction management
- o space program validation
- o training, privatization and outsourcing

Example: Complete management of prepared designs ensuring adherence to design directives, project goals and objectives, code compliance, budget review, cost modeling, constructability and preparation of project management plans.

Professional Engineering Services
Contract No. GS-23F-0168K
PROFESSIONAL ENGINEERING SERVICES

871-5/871-5RC Integrated Logistics Support

Services required under this SIN involves the analysis, planning and detailed design of all engineering specific logistics support including material goods, personnel, and operational maintenance and repair of systems throughout their life cycles. Typical associated tasks include, but are not limited to:

- o ergonomic/human performance analysis
- o feasibility analysis
- o logistics planning
- o relocation and move planning
- o requirements determination
- o equipment moving protocols
- o policy standards/procedures development
- o management plans
- o long-term reliability and maintainability
- o warranty & maintenance plans
- o training, privatization and outsourcing

Example: The full range of life cycle logistics support for project/facility will be identified and designed in this stage including training, operation and maintenance requirements, and replacement procedures.

871-6/871-6RC Acquisition And Life Cycle Management

Services required under this SIN involve the entire planning, budgetary, contract and systems/program management execution functions required to procure and/or produce, render operational and provide life cycle support (maintenance, repair, supplies, and engineering specific logistics) to technology-based systems, activities, subsystems, projects, etc. Typical associated tasks include, but are not limited to:

- o operation and maintenance
- o program/project management
- o construction management
- o training, privatization and outsourcing

Example: During this stage the actual construction, and performance monitoring of the facility will be assisted through project management, configuration management, reliability analysis, engineering retrofit improvements and similar functions.

Professional Engineering Services
Contract No. GS-23F-0168K
PROFESSIONAL ENGINEERING SERVICES

871-7/871-7RC Construction Management Services

Services required under this SIN will utilize construction managers as the principal agent to advise on or manage the construction process through all phases of the project. The CM will become a professional advisor or extension of the staff to the customer agency. Typical associated tasks include, but are not limited to:

- o project design phase services
- o project procurement phase services
- o project construction phase services
- o commissioning services
- o testing services
- o claims services
- o post construction services

Example: The construction manager will help the customer agency to identify which delivery method is the best for the project. Working through the design phase managing the preparation of the construction documents, then through procurement to select the project team and then through construction to the end of the project. The CM will provide expert advice and assistance to ensure that the customer agency successfully accomplishes their program or project.

Professional Engineering Services

Contract No. GS-23F-0168K

Labor Category Definitions

LABOR CATEGORY DEFINITIONS

Labor Category	Definition
Principal	Program oversight. Ensures resources are available and that tasks are fully staffed with personnel, equipment and other required support. Assigns the task to the appropriate Program Manager. Bachelor's degree or higher in an engineering or architectural field. 15 or more years relevant experience.
Program Manager / Senior Project Manager	Provides business, technical, and personnel management across a major single project or multiple projects, involving multi-disciplinary and diverse functional activities, subordinate groups of technical and administrative personnel. Bachelor's degree or higher in an engineering or architectural field. 10 or more years relevant experience.
Project Manager	Provides business, technical, and personnel management and coordination for individual projects. Provides comprehensive definition of all technical aspects of project requirement. Program development, analysis of program mission, goals, and objectives. Bachelor's degree or higher in an engineering or architectural field. 5 or more years relevant experience.
Assistant Project Manager	Supports the Project Manager. Gathers data and performs basic analysis of the gathered information. Bachelor's degree or higher in a technical field. 2 or more years relevant experience.
Senior Engineer/ Architect	Provides leadership developing complex technical solutions for planning and engineering studies and analysis. Plans project coordination and management. Provides comprehensive definition of all technical aspects of project requirements within engineering disciplines. Knowledgeable of local and national codes. Performs evaluation of alternatives and assessments of risks and costs as well as investigative engineering. Bachelor's degree in an engineering/ architectural field. 10 years of relevant experience.
Project Engineer/ Architect	Provides leadership developing basic technical solutions for planning and engineering studies and analysis. Reviews organizations' functions, inter-relationships and program requirements. Provides space utilization planning, functional relationships and office layout. Supports the Project Manager or Senior Engineer/ Architect. Bachelor's degree in an engineering/architectural field. 5 years of relevant experience.
Junior Engineer/ Architect	Provides technical assistance in applications under the direction of more senior personnel. Bachelor's degree in an engineering or architectural field. 2 to 4 years of relevant experience.
Scheduler	Develops illustrative schedules to show integration of various time aspects of the task. Prepares and analyzes sequencing of activities; activity interdependencies and proposed program schedules. Supports the Project Manager in all scheduling requirements. Bachelor's degree with 8 years of relevant experience.
Cost Estimator	Performs construction cost estimating. Provides conceptual cost estimates during Pre-design phase. Performs quantity surveys from design documents and applies cost to quantities of materials. Identifies unusually high cost items in relation to other facilities. Bachelor's degree or equivalent and 10 years of relevant experience, or AA degree and 20 years of relevant experience.

Professional Engineering Services

Contract No. GS-23F-0168K

Labor Category Definitions

Labor Category	Definition
CADD Draftsman	Performs routine and complex technical CADD functions. Works under the supervision of more senior personnel. AA degree of equivalent. 2 or more years of relevant experience.
Senior Inspector	Performs audits of construction and quality control. Checks compliance to specifications, standards, and construction practices. Bachelor's degree in a technical field and 10 years of relevant experience or AA degree and 20 years of relevant experience.
Inspector	Performs audits of construction and quality control. Checks compliance to specifications, standards, and construction practices. Works under the supervision of a Senior Inspector or Project Manager. Bachelor's degree in a related field and 5 years of relevant experience, or AA degree and 10 years of relevant experience.
Clerical	Performs clerical and word processing functions including typing, word processing, data entry, filing, copying, binding, faxing, and telephone switchboard. High School Diploma. 2 years experience.

Contract No. GS-23F-0168K

Price List for Special Item Numbers

PRICE LIST FOR SPECIAL ITEM NUMBERS: 871-1/871-1RC, 871-2/871-2RC, 871-3/871-3RC, 871-5/871-5RC, 871-6/871-6RC and 871-7/871-7RC

The GSA has determined that the rates for services contained in Heery's price list applicable to this schedule are fair and reasonable. However, the ordering office using this contract is responsible for considering the level of effort and mix of labor proposed to perform the specific task being ordered and for making a determination that the total firm-fixed price or ceiling price is fair and reasonable.

The prices, terms and conditions stated apply exclusively to Professional Engineering Services (PES) within the scope of this FAS Schedule. All prices include the GSA .75% Industrial Funding Fee which Heery forwards to GSA quarterly, based on sales received under this Schedule.

**Professional Engineering Services
Contract No. GS-23F-0168K
Service Contract Act (SCA) Statement**

SCA Matrix

<u>SCA Eligible Contract Labor Category</u>	<u>SCA Equivalent Code and Title</u>	<u>WD Number</u>
Clerical	01113 General Clerk III	05-2103

*The Service Contract Act (SCA) is applicable to this contract and it includes SCA applicable labor categories. The prices for the indicated (**) SCA labor categories are based on the U.S. Department of Labor Wage Determination Number identified in the SCA matrix. The prices offered are based on the preponderance of where work is performed and should the contractor perform in an area with lower SCA rates, resulting in lower wages being paid, the task order prices will be discounted accordingly.
